Notes to Consolidated Financial Statements

The Bank of Kyoto, Ltd. and Consolidated Subsidiaries Year Ended March 31, 2018

1. Basis of Presentation of Consolidated Financial Statements

The accompanying consolidated financial statements of The Bank of Kyoto, Ltd. (the "Bank") and consolidated subsidiaries have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulation and the Enforcement Regulation for the Banking Law and in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2017 consolidated financial statements to conform to the classifications used in 2018.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Bank is incorporated and operates. All yen figures for 2018 and 2017 have been rounded down to millions of yen. Also, U.S. dollar amounts have been rounded down to thousands of dollar.

The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan and has been made at the rate of ¥106.24 to $1, the approximate rate of exchange at March 31, 2018. Such translation should not be construed as a representation that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

2. Summary of Significant Accounting Policies

a. *Consolidation* — The consolidated financial statements as of March 31, 2018 include the accounts of the Bank and its 8 (8 in 2017) significant subsidiaries (together, the "Group").

Under the control and influence concepts, those companies in which the Bank, directly or indirectly, is able to exercise control over operations are fully consolidated, and those companies over which the Group has the ability to exercise significant influence are accounted for by the equity method.

Investments in 1 (1 in 2017) affiliated company is accounted for by the equity method.

Of the consolidated subsidiaries, 8 in 2018 and 2017, respectively, have fiscal years ending on March 31, which is the same as the fiscal year end date of the Bank.

Investments in the remaining unconsolidated subsidiary and an affiliated company are stated at cost. The effect on the consolidated financial statements of not applying the equity method is immaterial.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Group is also eliminated.

b. *Cash Equivalents* — For purposes of the consolidated statements of cash flows, the Group considers deposits with Bank of Japan which are included in "Cash and due from banks" in the consolidated balance sheet, to be cash equivalents.

c. *Trading Securities* — Trading securities, which are held for the purpose of primarily earning capital gains in the short term, are reported at fair value and the related unrealized gains and losses are included in the consolidated statement of income.

d. *Securities* — Securities are classified and accounted for, depending on management's intent, as follows: (1) held-to-maturity debt securities, which are expected to be held to maturity with the positive intent and ability to hold to maturity, are reported at amortized cost and (2) available-for-sale securities, which are not classified as held-to-maturity debt securities, are reported at fair value, with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity. Securities whose fair value cannot be reliably determined are stated at cost determined by the moving-average method. For other-than-temporary declines in fair value, securities are reduced to net realizable value by a charge to income. Money held in trust classified as trading is reported at fair value and the related unrealized gains and losses are included in the consolidated statement of income.

e. *Derivatives and Hedging Activities* — Derivatives are classified and accounted for as follows: (a) all derivatives (other than those used for hedging purposes) are recognized as either assets or liabilities and measured at fair value at the end of the fiscal year and the related gains or losses are recognized in the accompanying consolidated statement of income and (b) for derivatives used for hedging purposes, if such derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, the gains or losses on the derivatives are deferred until maturity of the hedged transactions.

To manage interest rate risk associated with financial assets and liabilities, the Bank applies hedge accounting by matching specific items to be hedged with specific hedging instruments or applying deferral hedge accounting (or cash flow hedge) based on the rules of the Japanese Institute of Certified Public Accountants (the "JICPA") Industry Audit Committee Report No. 24.

The Bank applies deferral hedge accounting based on the rules of the JICPA Industry Audit Committee Report No. 25, "Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry," to manage its exposures to fluctuations in foreign exchange rates associated with assets and liabilities denominated in foreign currencies.

f. *Tangible Fixed Assets* — Tangible fixed assets are stated at cost less accumulated depreciation. Depreciation of tangible fixed assets of the Bank is computed using the declining-balance method while the straight-line method is applied to buildings acquired on or after April 1, 1998, and building improvements and structures acquired on or after April 1, 2017, at rates based on the estimated useful lives of the assets. The range of useful lives is principally from 8 to 50 years for buildings and from 3 to 20 years for other tangible fixed assets. Depreciation of tangible fixed assets of the Bank's consolidated subsidiaries is computed substantially by the declining-balance method at rates based on the estimated useful lives of the assets.

g. *Intangible Fixed Assets* — Depreciation of intangible fixed assets is computed using the straight-line method. Software costs for internal use are capitalized and amortized by the straight-line method over the estimated useful life of 5 years.

h. *Long-Lived Assets* — The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

Accumulated impairment losses are directly deducted from the respective tangible fixed assets.

i. *Allowance for Possible Loan Losses* — The amount of the allowance for possible loan losses is determined based on management's judgment and assessment of future losses based on the Bank's self-assessment system. This system reflects past experience of credit losses, possible future credit losses, business and economic conditions, the character, quality and performance of the portfolio, and other pertinent indicators.

The quality of all loans is assessed by branches and the Credit Examination Division with a subsequent audit by the Asset Review and Inspection Division in accordance with the Bank's policy and rules for self-assessment of asset quality.

The Bank has established a credit rating system under which its customers are classified into five categories. The credit rating system is used in the self-assessment of asset quality.

The five categories for self-assessment purposes are "normal," "caution," "possible bankruptcy," "virtual bankruptcy" and "legal bankruptcy."

For claims to debtors classified as legal bankruptcy or virtual bankruptcy, a full reserve is provided after deducting amounts collectible through the disposal of collateral or execution of guarantees.

For claims to debtors classified as possible bankruptcy, which are currently neither legally nor virtually bankrupt but are likely to become bankrupt, and for claims to debtors which had restructured loans, allowances are provided at the amounts deemed necessary based on an overall solvency assessment performed after deducting amounts collectible through the disposal of collateral or execution of guarantees. The discounted cash flow method ("DCF method") is applied to claims whose estimated uncollectible amounts exceed a pre-established threshold and future cash flows could reasonably be estimated. Under the DCF method, an allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rates and the carrying value of the claims.

For other claims, an allowance is provided based on historical loan loss experience.

Subsidiaries provide an allowance for general claims based on their historical loan loss experience and for specific claims at the amounts individually estimated to be uncollectible.

j. *Liability for Employees' Retirement Benefits* — The Bank has a contributory funded pension plan and an unfunded lump-sum severance payment plan. In addition, the Bank has transferred a portion of its defined benefit corporate pension plan to a defined contribution pension plan, effective from April 1, 2017. Certain consolidated subsidiaries have unfunded lump-sum severance payment plans. They introduced defined contribution pension plan, effective from April 1, 2017. They apply the simplified method to state the retirement benefit expenses and the liability for retirement benefits for employees.

The Bank accounts for the liability for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The projected benefit obligations are attributed to periods on a benefit formula basis. Actuarial gains and losses that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects and are recognized in profit or loss over 10 years no longer than the expected average remaining service period of the employees.

k. *Liability for Reimbursement of Deposit Losses* — A liability for reimbursement of deposits which was derecognized as a liability is provided for estimated losses on future claims of withdrawal from depositors of inactive accounts.

l. *Liability for Contingent Losses* — A liability for contingent losses is provided for possible losses from contingent events related to the enforcement of the "responsibility-sharing system" on October 1, 2007. The liability is calculated by estimation of future burden charges and other payments to the Credit Guarantee Corporation.

m. *Foreign Currency Transactions* — Foreign currency-denominated assets and liabilities are translated into Japanese yen at the exchange rates prevailing at the balance sheet date. The foreign exchange gains and losses from translation are recognized in the consolidated statement of income.

n. *Stock Options* — Compensation expense for employee stock options which were granted on and after May 1, 2006 are recognized based on the fair value at the date of grant and over the vesting period as consideration for receiving goods or services in accordance with Accounting Standards Board of Japan (the "ASBJ") Statement No. 8, "Accounting Standard for Stock Options." In the balance sheet, stock options are presented as stock acquisition rights as a separate component of equity until exercised.

o. *Leases* — In March 2007, the ASBJ issued ASBJ Statement No. 13, "Accounting Standard for Lease Transactions," which revised the previous accounting standard for lease transactions. The revised accounting standard for lease transactions was effective for fiscal years beginning on or after April 1, 2008.

Lessee

Under the previous accounting standard, finance leases that were deemed to transfer ownership of the leased property to the lessee were capitalized. However, other finance leases were permitted to be accounted for as operating lease transactions if certain "as if capitalized" information was disclosed in the note to the lessee's financial statements. The revised accounting standard requires that all finance lease transactions be capitalized by recognizing lease assets and lease obligations in the balance sheet. In addition, the revised accounting standard permits leases which existed at the transition date and do not transfer ownership of the leased property to the lessee to be accounted for as operating lease transactions.

The Group applied the revised accounting standard effective April 1, 2008.

All other leases are accounted for as operating leases.

Lessor

Under the previous accounting standard, finance leases that were deemed to transfer ownership of the leased property to the lessee were treated as sales. However, other finance leases were permitted to be accounted for as operating lease transactions if certain "as if sold" information was disclosed in the notes to the lessor's financial statements. The revised accounting standard requires that all finance leases that are deemed to transfer ownership of the leased property to the lessee be recognized as lease receivables, and all finance leases that are not deemed to transfer ownership of the leased property to the lessee be recognized as investments in leases.

With regard to finance lease transactions entered into prior to April 1, 2008, that were not deemed to transfer ownership of the property to the lessee, leased investment assets are recognized at the book values of those leased assets at the transaction date.

The Group applied the revised accounting standard effective April 1, 2008.

p. *Income Taxes* — The provision for income taxes is computed based on the pretax income included in the consolidated statement of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.

q. *Per Share Information* — Basic net income per share is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period, retroactively adjusted for stock splits.

Diluted net income per share reflects the potential dilution that could occur if securities were exercised or converted into common stock. Diluted net income per share of common stock assumes full conversion of the outstanding convertible notes and bonds at the beginning of the year (or at the time of issuance) with an applicable adjustment for related interest expense, net of tax, and full exercise of outstanding warrants.

Cash dividends per share presented in the accompanying consolidated statement of income are dividends applicable to the respective fiscal years including dividends to be paid after the end of the year.

On October 1, 2017, the Bank effected a one-for-five reverse stock split. All prior year share and per share figures have been restated to reflect the impact of the reverse stock split, and to provide data on a basis comparable to the year ended March 31, 2018. Such restatements include calculations regarding the Bank's weighted-average number of common shares, basic net income per share, diluted net income per share, and cash dividends per share.

r. *Business Combinations* — Business combinations are accounted for using the purchase method. Acquisition-related costs, such as advisory fees or professional fees, are accounted for as expenses in the periods in which the costs are incurred. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date. A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as capital surplus as long as the parent retains control over its subsidiary.

3. Cash and Cash Equivalents

The reconciliation of "Cash and cash equivalents" in the consolidated statement of cash flows and "Cash and due from banks" in the consolidated balance sheet as of March 31, 2018 and 2017, was as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Cash and due from banks	¥854,822	¥826,631	$8,046,148
Due from banks, excluding due from the Bank of Japan	(9,872)	(5,091)	(92,927)
Cash and cash equivalents	¥844,950	¥821,539	$7,953,220

4. Securities

Securities at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Japanese government bonds	¥ 566,556	¥ 769,486	$ 5,332,795
Japanese local government bonds	567,246	423,685	5,339,293
Japanese corporate bonds	658,219	726,780	6,195,594
Japanese corporate stocks	922,738	685,610	8,685,414
Other securities	362,590	259,509	3,412,933
Total	¥3,077,351	¥2,865,072	$28,966,031

Securities included investments in unconsolidated subsidiaries and an affiliated company, accounted for by the equity method or the cost method, of ¥562 million ($5,298 thousand) and ¥752 million as of March 31, 2018 and 2017, respectively.

Held-to-maturity debt securities at March 31, 2018, were as follows:

	Millions of yen				
	2018				
	Carrying amount	Fair value	Net unrealized gains (losses)	Unrealized gains	Unrealized losses
Japanese local government bonds	¥2,502	¥2,500	¥(1)	¥0	¥ (1)
Japanese corporate bonds	2,009	2,007	(2)	0	(2)
Japanese bonds — total	¥4,511	¥4,507	¥ (3)	¥ 0	¥ (4)

	Thousands of U.S. dollars				
	2018				
	Carrying amount	Fair value	Net unrealized gains (losses)	Unrealized gains	Unrealized losses
Japanese local government bonds	$23,551	$23,534	$(17)	$1	$(18)
Japanese corporate bonds	18,915	18,895	(19)	0	(20)
Japanese bonds — total	$42,467	$42,430	$(37)	$1	$(38)

There were no held-to-maturity debt securities during the year ended March 31, 2017.

The cost and aggregate fair value of available-for-sale securities at March 31, 2018 and 2017 were as follows:

	Millions of yen									
	2018					2017				
	Cost	Carrying amount	Net unrealized gains (losses)	Unrealized gains	Unrealized losses	Cost	Carrying amount	Net unrealized gains (losses)	Unrealized gains	Unrealized losses

Other — total	3,443,997	3,384,756	(59,241)	23,410	82,651
Total	$21,783,827	$28,864,006	$7,080,178	$7,186,940	$106,761

Bonds classified as held-to-maturity were not sold during the fiscal years ended March 31, 2018 and 2017.

Available-for-sale securities sold during the fiscal year:

	Millions of yen					
	2018			2017		
	Sales amount	Gains on sales	Losses on sales	Sales amount	Gains on sales	Losses on sales
Available-for-sale securities:						
Equity securities	¥ 14,414	¥2,226	¥ 204	¥ 33,590	¥ 3,663	¥ 191
Debt securities	607,998	2,228	479	565,184	5,345	759
Other securities	175,800	1,075	3,398	181,743	3,911	2,289
Total	¥798,213	¥5,530	¥4,083	¥780,518	¥12,920	¥3,240

	Thousands of U.S. dollars		
	2018		
	Sales amount	Gains on sales	Losses on sales
Available-for-sale securities:			
Equity securities	$ 135,674	$20,961	$ 1,926
Debt securities	5,722,879	20,972	4,512
Other securities	1,654,748	10,122	31,992
Total	$7,513,302	$52,055	$38,432

The classification of securities was not changed in the years ended March 31, 2018 and 2017.

Individual securities, except for trading securities, are written down when a decline in fair value below the cost of such securities is "deemed to be other than temporary." The amount written down is accounted for as losses on devaluation. The total losses on devaluation of available-for-sale securities (other than securities whose fair value cannot be reliably determined) amounted to ¥1 million for the year ended March 31, 2017. The devaluation of available-for-sale securities did not occur for the year ended March 31, 2018.

To determine whether an other-than-temporary impairment has occurred, the Bank applies the following rules by the credit risk category for the security issuer based on the Bank's self-assessment guidelines.

(a) For securities issued by obligors classified as "legal bankruptcy," "virtual bankruptcy" and "possible bankruptcy": the fair value is lower than the amortized/acquisition cost.

(b) For securities issued by obligors classified as "caution": the fair value is 30% or more lower than the amortized/acquisition cost.

(c) For securities issued by obligors classified as "normal": the fair value is 50% or more lower than the amortized/acquisition cost, or fair value is more than 30% but less than 50% lower than amortized/acquisition cost and stayed below a certain level for a specified period of time.

"Legal bankruptcy" refers to issuers who have already gone bankrupt from a legal and/or formal perspective. "Virtual bankruptcy" refers to issuers who have not yet gone legally or formerly bankrupt but who are substantially bankrupt because they are in serious financial difficulties and the possibility of restructuring is remote. "Possible bankruptcy" refers to issuers who are not yet bankrupt but are in financial difficulties and are very likely to go bankrupt in the future. "Caution" refers to debtors who require close attention because there are problems with their borrowings. "Normal" refers to issuers other than those classified as "legal bankruptcy," "virtual bankruptcy," "possible bankruptcy" and "caution" mentioned above.

5. Money Held in Trust

(1) Money held in trust classified as trading:

	Millions of yen				Thousands of U.S. dollars	
	2018		2017		2018	
	Carrying amount	Unrealized gains (losses) included in earnings	Carrying amount	Unrealized gains (losses) included in earnings	Carrying amount	Unrealized gains (losses) included in earnings
Money held in trust classified as trading	¥48,033		¥48,151		$452,119	

(2) No money held in trust was classified as held-to-maturity at March 31, 2018 and 2017.

(3) No money held in trust was classified as available-for-sale (money held in trust that is classified neither as trading nor as held-to-maturity) at March 31, 2018 and 2017.

6. Net Unrealized Gains/Losses on Available-for-Sale Securities

Available-for-sale securities were valued at market and net unrealized gains/losses on valuation were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Net unrealized gains on available-for-sale securities	¥ 752,198	¥ 531,964	$ 7,080,178
Deferred tax liabilities	(228,257)	(160,779)	(2,148,506)
Other	(54)		(516)
Net unrealized gains on valuation (before adjustment)	523,886	371,185	4,931,156
Noncontrolling interests	(335)	(177)	(3,154)
Net unrealized gains on valuation	¥ 523,550	¥ 371,008	$ 4,928,001

7. Loans and Bills Discounted

Loans and bills discounted at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Bills discounted	¥ 26,605	¥ 23,514	$ 250,424
Loans on bills	99,231	100,080	934,029
Loans on deeds	4,694,510	4,402,026	44,187,783
Overdrafts	445,936	453,124	4,197,441
Total	¥5,266,282	¥4,978,745	$49,569,678

Bills discounted are accounted for as financial transactions in accordance with "Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry" (the JICPA Industry Audit Committee Report No. 24). The Bank has rights to sell or pledge these bills discounted. The total of the face value of bills discounted was ¥27,497 million ($258,821 thousand) and ¥24,715 million at March 31, 2018 and 2017, respectively.

Loans and bills discounted at March 31, 2018 and 2017, included the following loans:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Loans in legal bankruptcy	¥ 3,963	¥ 3,478	$ 37,308
Nonaccrual loans	65,792	72,269	619,285
Past due loans (three months or more)	6		56
Restructured loans	387	479	3,647
Total	¥70,150	¥76,226	$660,297

Loans in legal bankruptcy are loans in which the interest accrual is discontinued (excluding the portion recognized as bad debt), based on management's judgment as to the collectability of principal or interest resulting from the delay in payments of interest or principal for a considerable period of time and other factors.

Nonaccrual loans are loans in which interest accrual is discontinued, other than loans in legal bankruptcy and loans granting deferral of interest payments to debtors in financial difficulty to assist them in their recovery.

Past due loans (three months or more) are excluded loans that are classified as loans in legal bankruptcy and nonaccrual loans.

Restructured loans are loans on which the Bank grants concessions (e.g., reductions of the stated interest rate, deferrals of interest payments, extensions of maturity dates, waivers of the face amount, or other measures) to the debtors to assist them in recovering from financial difficulties and eventually being able to pay creditors. Loans classified as loans in legal bankruptcy, nonaccrual loans, and accruing loans contractually past due by three months or more are excluded.

8. Foreign Exchanges

Foreign exchange assets and liabilities at March 31, 2018 and 2017 consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Assets:			
Due from foreign correspondents	¥19,402	¥6,900	$182,626
Foreign bills of exchange purchased	892	1,202	8,398
Foreign bills of exchange receivable	312	309	2,940
Total	¥20,606	¥8,411	$193,965
Liabilities:			
Foreign bills of exchange sold	¥ 205	¥ 113	$ 1,933
Accrued foreign bills of exchange	5		49
Total	¥ 210	¥ 113	$ 1,982

9. Tangible Fixed Assets

Accumulated depreciation on tangible fixed assets at March 31, 2018 and 2017, amounted to ¥80,953 million ($761,991 thousand) and ¥78,520 million, respectively.

10. Assets Pledged

Assets pledged as collateral and related liabilities at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Securities	¥422,297	¥278,054	$3,974,935

Collateralized liabilities were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Deposits	¥ 16,113	¥29,204	$ 151,675
Call money	10,624	11,219	100,000
Payables under securities lending transactions	303,360	163,682	2,855,426
Borrowed money	93,586	91,979	880,894

In addition, securities totaling ¥340,667 million ($3,206,583 thousand) and ¥371,512 million at March 31, 2018 and 2017, respectively, were pledged as collateral for the settlement of exchange and derivative transactions.

Cash collateral paid for financial instruments and surety deposits are included in "Other assets" in the consolidated balance sheet.

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Cash collateral paid for financial instruments	¥36,752	¥4,226	$345,933
Surety deposits	1,722	1,714	16,210

11. Commitment Line

Commitment line contracts on overdrafts and loans are agreements to lend to customers when they apply for borrowing up to prescribed amounts as long as there is no violation of any condition established in the contracts. At March 31, 2018 and 2017, such commitments amounted to ¥1,481,447 million ($13,944,350 thousand) and ¥1,403,330 million, respectively, of which ¥1,418,255 million ($13,349,548 thousand) and ¥1,342,679 million, respectively, were those whose original contract maturity was within one year or unconditionally cancelable at any time. As many of these commitments are expected to expire without being drawn upon, the total amount of unutilized commitments does not necessarily represent actual future cash flow requirements. Many of these commitments have clauses that the Group can reject the application from customers or reduce the contract amounts in case economic conditions change, there is a deterioration in the customer's creditworthiness, or other events occur. In addition, the Group requests customers to pledge collateral, such as buildings, land, and securities, at the execution of the contracts, and takes necessary measures, such as understanding customers' financial positions, revising contracts when the need arises, and securing claims, after the execution of the contracts.

12. Land Revaluation

Under the "Law of Land Revaluation," promulgated on March 31, 1998 (final revised on May 30, 2003), the Bank elected a one-time revaluation of its own-use land to a value based on real estate appraisal information as of March 31, 2002.

The resulting land revaluation surplus represented unrealized appreciation of land and was stated, net of income taxes, as a component of equity. Continuous readjustment is not permitted unless the land value subsequently declines significantly such that the amount of the decline in value should be removed from the land revaluation surplus account and related deferred tax liabilities.

At March 31, 2017, the carrying amount of the land after the above one-time revaluation was less than the fair value by ¥214 million. At March 31, 2018, the carrying amount of the land after the above one-time revaluation was greater than the fair value.

Method of Revaluation

The fair value was determined by applying appropriate adjustments for land shape and analysis on the appraisal specified in Article 2-4 of the Enforcement Ordinance of the Law of Land Revaluation effective March 31, 1998.

13. Deposits

Deposits at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	**2018**
Current deposits	¥ 334,706	¥ 306,416	$ 3,150,477
Ordinary deposits	3,726,133	3,462,449	35,072,794
Savings deposits	83,907	83,248	789,789
Deposits at notice	14,827	13,707	139,562
Time deposits	2,498,342	2,535,596	23,516,025
Other deposits	221,058	240,866	2,080,748
Subtotal	6,878,975	6,642,283	64,749,396
Negotiable certificates of deposit	920,153	925,106	8,661,081
Total	¥7,799,129	¥7,567,390	$73,410,478

14. Borrowed Money

Borrowed money at March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	**2018**
Subordinated loans	¥ 16,000	¥ 29,000	$ 150,602
Borrowing from banks and other	94,141	92,601	886,124
Total	¥110,141	¥121,601	$1,036,726

At March 31, 2018 and 2017, the weighted average interest rates applicable to borrowed money were 0.45% and 0.55%, respectively.

Annual maturities of borrowed money at March 31, 2018, were as follows:

Year Ending March 31	Millions of yen 2018	Thousands of U.S. dollars 2018
2019	¥ 94,016	$ 884,942
2020	39	368
2021	20	188
2022	66	625
2023		
2024 and thereafter	16,000	150,602
Total	¥110,141	$1,036,726

15. Acceptances and Guarantees

All contingent liabilities arising from acceptances and guarantees are reflected in "Acceptances and guarantees." As a contra account, "Customers' liabilities for acceptances and guarantees" are shown as an asset representing the Bank's right of indemnity from the applicants.

Among corporate bonds included in securities, guarantee liabilities on privately offered corporate bonds (Article 2-3 of the Financial Instruments and Exchange Act) amounted to ¥25,676 million ($241,679 thousand) as of March 31, 2018.

16. Equity

Japanese banks are subject to the Companies Act of Japan (the "Companies Act") and the Banking Law. The significant provisions in the Companies Act and the Banking Law that affect financial and accounting matters are summarized below:

a. *Dividends*

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. Additionally, for companies that meet certain criteria including (1) having a Board of Directors, (2) having independent auditors, (3) having an Audit & Supervisory Board, and (4) the term of service of the directors being prescribed as one year rather than the normal two-year term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends in kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. The Bank, however, shall not pay such dividends by resolution of the Board of Directors, since it has not prescribed so in its articles of incorporation. On the other hand, semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act and the Banking Law provides certain limitations on the amounts available for dividends or the purchase of treasury stock.

b. *Increases/Decreases and Transfer of Common Stock, Reserve, and Surplus*

The Banking Law requires that an amount equal to 20% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus) depending on the equity account charged upon the payment of such dividends until the total of the aggregate amount of the legal reserve and additional paid-in capital equals 100% of capital stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation. The Companies Act also provides that capital stock, legal reserve, additional paid-in capital, other capital surplus, and retained earnings can be transferred among the accounts within equity under certain conditions upon resolution of the shareholders.

c. *Treasury Stock and Treasury Stock Acquisition Rights*

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by a specific formula. Under the Companies Act, stock acquisition rights are presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

On October 1, 2017, the Bank made the one-for-five reverse stock split for each outstanding share.

17. Stock Options

Stock-based compensation expenses were ¥88 million ($832 thousand) and ¥105 million for the years ended March 31, 2018 and 2017, respectively.

The stock options outstanding as of March 31, 2018, were as follows:

Stock option	Persons granted	Number of options granted	Date of grant	Exercise price	Exercise period
2008 Stock Option	12 directors and 6 executive officers of the Bank	17,420 shares	July 29, 2008	¥1 ($0.01)	From July 30, 2008, to July 29, 2038
2009 Stock Option	12 directors and 5 executive officers of the Bank	22,380 shares	July 29, 2009	¥1 ($0.01)	From July 30, 2009, to July 29, 2039
2010 Stock Option	12 directors and 7 executive officers of the Bank	28,740 shares	July 29, 2010	¥1 ($0.01)	From July 30, 2010, to July 29, 2040
2011 Stock Option	12 directors and 8 executive officers of the Bank	29,960 shares	August 1, 2011	¥1 ($0.01)	From August 2, 2011, to August 1, 2041
2012 Stock Option	13 directors and 10 executive officers of the Bank	32,960 shares	July 30, 2012	¥1 ($0.01)	From July 31, 2012, to July 30, 2042
2013 Stock Option	13 directors and 8 executive officers of the Bank	28,880 shares	July 30, 2013	¥1 ($0.01)	From July 31, 2013, to July 30, 2043
2014 Stock Option	13 directors and 10 executive officers of the Bank	24,880 shares	July 30, 2014	¥1 ($0.01)	From July 31, 2014, to July 30, 2044
2015 Stock Option	10 directors and 14 executive officers of the Bank	15,020 shares	July 30, 2015	¥1 ($0.01)	From July 31, 2015, to July 30, 2045
2016 Stock Option	9 directors and 14 executive officers of the Bank	31,680 shares	July 28, 2016	¥1 ($0.01)	From July 29, 2016, to July 28, 2046
2017 Stock Option	8 directors and 11 executive officers of the Bank	15,900 shares	July 30, 2017	¥1 ($0.01)	From July 31, 2017, to July 30, 2047

The number of stock options has been converted to the number of shares after the one-for-five reverse stock split implemented on October 1, 2017.

The stock option activity was as follows:

	2008 Stock option	2009 Stock option	2010 Stock option	2011 Stock option	2012 Stock option	2013 Stock option	2014 Stock option	2015 Stock option	2016 Stock option

"Average stock price at exercise" and "Fair value price at grant date" has been converted to the price after the one-for-five reverse stock split implemented on October 1, 2017.

The fair value of stock options granted in 2018 was measured on the date of grant using the Black-Scholes option pricing-model with the following assumptions:

Volatility of stock price:	42.2%
Estimated remaining outstanding period:	One year and ten month
Estimated dividend:	¥60 per share
Risk free interest rate:	(0.11)%

18. Other Operating Income

Other operating income for the years ended March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	**2018**
Gains on foreign exchange transactions — net	**¥ 390**	¥ 181	**$ 3,679**
Gains on trading securities	**1,324**		**12,465**
Gains on sales of bonds	**3,303**	9,256	**31,094**
Lease receipts	**4,294**	4,075	**40,424**
Other	**492**	442	**4,631**
Total	**¥9,805**	¥13,956	**$92,295**

19. Other Income

Other income for the years ended March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	**2018**
Recovery of loans previously charged off	**¥ 9**	¥ 1	**$ 87**
Gains on sales of stocks and other securities	**2,226**	3,761	**20,961**

Total	**¥7,407**	¥7,057	**$69,725**

20. Other Operating Expenses

Other operating expenses for the years ended March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Losses on sales of bonds	¥3,878	¥3,048	$36,505
Lease costs	3,709	3,523	34,914
Other	742	534	6,986
Total	¥8,329	¥7,107	$78,406

21. Other Expenses

Other expenses for the years ended March 31, 2018 and 2017, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Charge-off claims	¥ 163	¥ 62	$ 1,539
Losses on sales of stocks and other securities	217	191	2,042
Losses on devaluation of stocks and other securities		0	
Losses on invests in money held in trust	119	1,726	1,120
Losses on sales of tangible fixed assets	177	187	1,669
Losses on impairment of long-lived assets	717		6,757
Equity in loss of an affiliated company	14	12	139
Other	1,352	1,482	12,727
Total	¥2,761	¥3,664	$25,996

22. Leases

Lessee

The Group leases certain equipment.

The minimum rental commitments under noncancelable operating leases at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Due within one year	¥ 233	¥ 238	$ 2,199
Due after one year	1,615	1,592	15,203
Total	¥1,848	¥1,830	$17,403

Lessor

A consolidated subsidiary leases other assets.

The net leased investment assets were summarized as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Gross leased investment assets	¥11,004	¥10,815	$103,582
Estimated residual values	10	10	102
Unearned interest income	(1,046)	(1,046)	(9,852)
Leased investment assets	¥ 9,968	¥ 9,779	$ 93,832

Maturities of lease receivables and investment assets for finance leases that were deemed to transfer ownership of the leased property to the lessee were as follows:

	Lease receivables		Leased investment assets	
	Millions of yen	Thousands of U.S. dollars	Millions of yen	Thousands of U.S. dollars
Year Ending March 31	2018	2018	2018	2018
2019	¥168	$1,585	¥ 3,527	$ 33,206
2020	115	1,085	2,785	26,216
2021	87	821	2,074	19,523
2022	62	587	1,343	12,648
2023	22	210	771	7,260
2024 and thereafter	12	121	502	4,727
Total	¥468	$4,411	¥11,004	$103,582

The minimum future rentals to be received under noncancelable operating leases at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Due within one year	¥8	¥3	$ 77
Due after one year	5	2	50
Total	¥13	¥6	$128

23. Employees' Retirement Benefits

The Bank has a contributory funded pension plan and an unfunded lump-sum severance payment plan. In addition, the Bank has transferred a portion of its defined benefit corporate pension plan to a defined contribution pension plan, effective from April 1, 2017. Certain consolidated subsidiaries have unfunded lump-sum severance payment plans. They introduced defined contribution pension plan, effective from April 1, 2017. They apply the simplified method to state the retirement benefit expenses and the liability for retirement benefits for employees.

(1) The changes in defined benefit obligation for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Balance at beginning of year (as restated)	¥61,161	¥59,868	$575,695
Current service cost	2,095	2,573	19,732
Interest cost	273	298	2,575
Actuarial gains	260	552	2,453
Benefits paid	(2,115)	(2,131)	(19,915)
Decrease due to the transfer to the defined contribution pension plan	(6,370)		(59,966)
Others	1	0	10
Balance at end of year	¥55,307	¥61,161	$520,585

(2) The changes in plan assets for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Balance at beginning of year	¥22,480	¥22,415	$211,599
Expected return on plan assets	473	448	4,457
Actuarial gains (losses)	794	420	7,480
Contributions from the employer	6,174	730	58,120
Benefits paid	(1,559)	(1,534)	(14,674)
Decrease due to the transfer to the defined contribution pension plan	(3,325)		(31,306)
Others	1	0	10
Balance at end of year	¥25,039	¥22,480	$235,687

(3) Reconciliation between the liability recorded in the consolidated balance sheet and the balances of defined benefit obligation and plan assets as of March 31, 2018 and 2017, is as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Funded defined benefit obligation	¥ 44,930	¥ 50,673	$ 422,916
Plan assets	(25,039)	(22,480)	(235,687)
	19,891	28,192	187,228
Unfunded defined benefit obligation	10,376	10,488	97,669
Net liability arising from defined benefit obligation	¥ 30,267	¥ 38,681	$ 284,898

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Liability for retirement benefits	¥30,267	¥38,681	$284,898
Asset for retirement benefits			
Net liability arising from defined benefit obligation	¥30,267	¥38,681	$284,898

(4) The components of net periodic benefit costs for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Service cost	¥2,095	¥2,573	$19,728
Interest cost	273	298	2,575
Expected return on plan assets	(473)	(448)	(4,457)
Recognized actuarial gains	994	1,068	9,365
Net periodic benefit costs	¥2,890	¥3,492	$27,211

In addition to the above, the amount to be recognized as "Gain on revision of retirement benefit plan" was ¥2,285 million ($21,514 thousand) for the year ended March 31, 2018 due to the effect resulting from a transfer of a portion of its defined benefit pension plan to defined contribution pension plan.

(5) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Actuarial losses	¥(2,288)	¥(936)	$(21,537)

Actuarial losses for the current consolidated fiscal year include reclassification adjustments of ¥759 million ($7,144 thousand) due to the effect resulting from a transfer of a portion of its defined benefit pension plan to defined contribution pension plan.

(6) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Unrecognized prior service cost			
Unrecognized actuarial gains	¥4,783	¥7,071	$45,027

(7) Plan assets

a. *Components of plan assets*

Plan assets consisted of the following:

	2018	2017
Debt investments	37%	46%
Equity investments	30	34
Cash and cash equivalents	22	9
Others	11	11
Total	100%	100%

b. *Method of determining the expected rate of return on plan assets*

The expected rate of return on plan assets was determined considering the long-term rates of return which were expected currently and in the future from the various components of the plan assets.

(8) Assumptions used for the years ended March 31, 2018 and 2017, were set forth as follows:

	2018	2017
Discount rate	0.5%	0.5%
Expected rate of return on plan assets	2.0	2.0
Expected salary increase rate	3.9	3.9

The amount to be paid to defined contribution pension plan was ¥324 million ($3,051 thousand) for the year ended March 31, 2018.

The effect resulting from a transfer of a portion of its defined benefit pension plan to defined contribution pension plan for the year ended March 31, 2018 was as follows:

	Millions of yen	Thousands of U.S. dollars
Decrease in defined benefit obligation	¥(6,370)	$(59,966)
Total amount of plan assets transferred to defined contribution pension plan	3,325	31,306
Subtotal	(3,044)	(28,659)
Recognized actuarial losses	759	7,144
Total	¥(2,285)	$(21,514)

The gain resulting from the transfer is recognized as "Gain on revision of retirement benefit plan" in the consolidated statement of income for the year ended March 31, 2018.

24. Income Taxes

The Group is subject to Japanese national and local income taxes which, in the aggregate, resulted in a normal effective statutory tax rate of approximately 33.0% for the years ended March 31, 2018 and 2017.

The tax effects of significant temporary differences which resulted in deferred tax assets and liabilities at March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Deferred tax assets:			
Allowance for possible loan losses	¥ 6,309	¥ 6,931	$ 59,389
Liability for employees' retirement benefits	2,788	2,852	26,249
Devaluation of stocks and other securities	9,270	11,850	87,262
Depreciation	347	322	3,268
Other	4,034	4,171	37,979
Less valuation allowance	(3,021)	(2,908)	(28,439)
Total	¥ 19,729	¥ 23,220	$ 185,710
Deferred tax liabilities:			
Net unrealized gains on available-for-sale securities	¥228,257	¥160,779	$2,148,506
Other	60	62	568
Total	¥228,317	¥160,842	$2,149,075
Net deferred tax assets	¥ 1,471	¥ 1,452	$ 13,848
Net deferred tax liabilities	¥210,059	¥139,074	$1,977,213

A reconciliation for the years ended March 31, 2018 and 2017, is not required under Japanese accounting standards, since the difference is less than 5% of the normal effective statutory tax rate.

25. Financial Instruments and Related Disclosures

In March, 2008, the ASBJ revised ASBJ Statement No. 10, "Accounting Standard for Financial Instruments" and issued ASBJ Guidance No. 19, "Guidance on Accounting Standard for Financial Instruments and Related Disclosures." This accounting standard and the guidance were applicable to financial instruments and related disclosures at the end of the fiscal years ending on or after March 31, 2010. The Group applied the revised accounting standard and the new guidance effective March 31, 2010.

(1) Basic policy for financial instruments

The main business of the Group is banking, which consists of deposit-taking and lending services, trading of securities, securities investment, domestic exchange services, foreign exchange services, etc. Additionally, the Group provides other financial services, such as credit guarantee services, leasing, and credit card services.

The Group's fundamental mission is to contribute to the greater prosperity of the local community and the development of local industries. The Group maintains and improves the soundness of its management, providing small- and medium-sized companies with various financial services such as deposits and loans, etc., and investing securities.

(2) Nature and extent of risks arising from financial instruments

Financial assets held by the Group are mainly composed of loans to local businesses and individual customers. Loans are subject to credit risk stemming from the inability to recover principal and interest on loans due to events such as the deterioration in the financial condition of the borrower.

Securities held by the Group primarily consist of bonds and stocks, which are subject to various risks, such as the credit risk of the issuer, interest rate fluctuation risk, and market price fluctuation risk.

The Group raises funds by deposits which have relatively shorter maturities than those of investments in loans and securities. Therefore, the Group is exposed to liquidity risks such as the risk of losses caused by the necessity to execute transactions at extremely high funding costs when unexpected outflows of funds occur, and by the inability to execute market transactions or by the necessity to execute transactions at extremely unfavorable prices as result of market turbulence.

The Bank enters into derivative financial instruments, such as interest rate swaps, interest rate caps, currency swaps, currency options and foreign exchange forward contracts. The Bank also enters into interest futures, bond futures, bond options and other derivatives; however, there is no derivative balance at March 31, 2018. Subsidiaries do not enter into any derivative transactions. Derivatives are subject to market risk, which is the risk that a loss may result from fluctuations in market conditions, and credit risk, which is the risk that a loss may result from a counterparty's failure to perform according to the terms and conditions of the contract.

Since most of the Bank's derivative transactions are conducted to hedge underlying business exposures, market gain or loss on the derivative instruments is expected to be offset by opposite movements in the value of the hedged assets or liabilities.

The Bank enters into derivatives principally as a means of managing its interest rate and foreign exchange rate exposures on certain assets. The Bank also uses derivatives within established trading limits as part of its short-term trading activities. In addition, the Bank uses derivatives actively to meet its customers' needs for new financial instruments.

Derivatives are classified and accounted for as follows:

① For derivatives used for hedging purposes, if derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on derivatives are deferred until maturity of the hedged transactions.

② The hedge items are the interest rate swaps and currency swaps. The hedged instruments are fixed rate loans and currency-denominated available-for-sale securities.

③ The Bank assesses the effectiveness of the interest rate swaps and currency swaps.

(3) Risk management for financial instruments

① Credit risk management

Having established a management posture by compiling a series of Credit Risk Management Guidelines, the Bank is working to strengthen its credit risk management. In addition to planning and managing credit risk through means such as credit ratings, a self-assessment system, write-offs of nonperforming loans, and provisions for possible loan losses, the Risk Management Division's Credit Planning Office (the "Office") is responsible for quantitatively analyzing and assessing credit risk. Because the concentration of credit in particular business partners or industries can lead to significant losses in the event of environmental changes, the Office analyzes the Bank's portfolio from a variety of perspectives to avoid any excessive concentration of credit. Quantitative analyses of credit risk and credit concentration conditions are reported at the monthly credit-risk management committee.

To maintain and improve the soundness of its assets, the Group subjects its assets to a self-assessment system in order to adequately write off non-performing loans and make provisions for possible loan losses. The Bank also established an Asset Audit Office as a specialized section within the Internal Audit Division to examine the validity of write-offs and allowances based on asset self-assessments. In managing credit for specific borrowers, the Bank has established a Credit Examination Division independent from business divisions, and the Bank is implementing strict credit screening. Obligor's ratings are determined based on information including the applicant's financial condition, technical capabilities, and future viability by the Credit Examination Division. Comprehensive judgments of repayment ability are provided considering the purpose of the loan and borrowers' repayment resources, when customers apply for borrowing. The Bank is also working to strengthen its credit screening capabilities by providing training for staff engaged in loan operations at all levels of the Bank.

Moreover, the Bank has established a Management Support Office within the Credit Examination Division and is working to keep the Bank's assets sound by helping customers radically transform slumping businesses via a variety of measures designed to support improvements in management. Other initiatives include strengthening risk management by formulating plans based on self-assessment results and taking measures in response to changes in business conditions through continuous monitoring.

② Market risk management

The Bank is taking steps to strengthen market risk management, based on the Market Risk Guidelines. The Risk Management Division, which is responsible for conducting market risk management, unifies the management of market risk (including risk for deposits, loans, stocks and other securities), credit risk, and other risks, and adequately controls risks within the scope of the Bank's capital to secure stable earnings.

To this end, the Risk Management Division manages and assesses risks by utilizing techniques such as the VaR method and analysis of fluctuations in the present value of assets and liabilities (interest risk level based on the outlier standard). The Bank also employs tools such as back testing and stress testing to verify the suitability and effectiveness of its metrics and management methods.

To effectively control market risk for stocks and other securities of instruments which has market risk, the Bank sets the limits on acceptable risk levels, as well as position ranges and loss limits, taking into account the Bank's economic capital and net operating profit to achieve a balance between capital and profitability. Regarding the Bank's investment in securities, the Bank regularly monitors the market value of securities and reports these to management.

For stocks, the Bank sets the limits on acceptable risk quantities based on the economic capital and the profit, and a semiannual self-assessment provides an accurate understanding of the investments in stocks and similar securities, the results of which are subject to audit by the Internal Audit Division.

Moreover, the Bank conducts semiannual reviews of risk management policy in areas such as credit, interest, and liquidity by holding ALM meetings. The Bank also works to strategically address risk management based on risk appetite at monthly ALM meetings by reporting on market risk quantities of each instrument, examining the appropriate balance of assets and liabilities, and considering measures such as risk hedges as needed.

(Quantitative information on market risk)

• Financial instruments other than those for trading purposes

The instruments that are affected by the typical risks, parameter interest rate risk, market price fluctuation risk and foreign currency risk are "Loans and bills discounted," "Securities," "Deposits (other than negotiable certificates of deposit)," "Negotiable certificates of deposit," "Cash and due from banks," "Call loans," "Call money" and interest rate swaps and currency swaps of "Derivatives." The Bank measures VaR and conducts a quantitative analysis of market risk in order to manage market risks for the financial assets and financial liabilities mentioned above.

In the current fiscal year, the Bank adopts the historical simulation method (at 1 month holding period and 99% confidence interval and 5 years observation period) in order to measure VaR for interest rate risk, foreign currency risk and market price fluctuation risk associated with stocks other than securities held for strategic equity. In order to measure VaR for market price fluctuation risk associated with securities held for strategic equity, the historical simulation method (at 6 months holding period, 99% confidence interval and 5 years observation period) is adopted.

The market risk exposure (the estimated amount of loss) of the Bank as of March 31, 2018 and 2017 was ¥31.4 billion ($295 million) and ¥21.3 billion.

VaR by risk type at March 31, 2018 and 2017, was as follows:

	Billions of yen		Millions of U.S. dollars
	2018	2017	**2018**
Interest rate fluctuation risk	**¥15.7**	¥12.8	**$147**
Market price fluctuation risk (*)	**15.6**	8.4	**146**
Foreign currency fluctuation risk	**0.1**	0.1	**0**
Total	**¥31.4**	¥21.3	**$295**

(*) The risk exposure related to securities held for strategic equity is measured considering unrealized gains and losses.

The Bank performs backtesting, which reconciles VaR measured by the model with the actual gains and losses in order to verify the reliability of the risk measurement model. VaR represents the market risks arising with a certain probability using a statistical methodology based on historical market volatilities. It may not be able to capture the risks arising under drastic market movements beyond normal imagination.

③ Liquidity risk management

The Bank maintains an appropriate funding position through careful projections and verification of fund-raising and fund management balances. The Bank manages its liquidity risk by utilizing a system that continuously monitors the amount of funds available in the market.

(4) Supplementary explanation on fair value of financial instruments

The fair value of financial instruments includes market prices, as well as reasonably calculated prices in cases where there are no market prices available. Since the calculations of the latter prices are implemented under certain conditions and assumptions, the result of calculations could differ if calculations are made under different conditions and assumptions.

(5) Fair value of financial instruments

Accounts that had immaterial amounts on the consolidated balance sheet were not included in the following table. Instruments, such as non-listed stocks, whose fair value cannot be reliably determined were not included in the following table (see (b)).

	Millions of yen		
March 31, 2018	Carrying amount	Fair value	Unrealized gains/losses
Cash and due from banks	¥ 854,822	¥ 854,822	
Securities:			
Held-to-maturity bonds	4,511	4,507	¥ (3)
Available-for-sale securities	3,066,512	3,066,512	
Loans and bills discounted	5,266,282

Hedge accountings applied	(14,446)	(14,446)	
Total	$ 912	$ 912	

(*1) General and specific allowances for possible loan losses corresponding to "Loans and bills discounted" were deducted.

(*2) Derivative transactions recorded in "Other assets" and "Other liabilities" were included and shown in total. Assets or liabilities were presented on a net basis.

(a) Valuation method of financial instruments

Assets

Cash and due from banks

For deposits without maturity, the carrying amount is presented as the fair value since fair value approximates such carrying amount. For deposits with maturity, the carrying amount is presented as the fair value, as the fair value approximates such carrying amount because of their short maturities (within one year).

Call loans and bills bought

The carrying amount is presented as the fair value since fair value approximates such carrying amount because of their short maturities (within one year).

Securities

The fair value of stocks is determined based on the prices quoted by the exchange and the fair value of bonds is determined based on the prices quoted by the exchange or the financial institutions from which they are purchased. The fair value of investment trusts is determined based on the publicly available price.

The fair value of private placement bonds is calculated by discounting the total amount of principal and interest at the interest rates considered to be applicable to similar bonds by categories according to internal ratings, and terms of the bonds. Information on securities by classification is included in Note 4.

Loans and bills discounted

For floating rate loans, the carrying amount is presented as a fair value as the fair value approximates such carrying amount, unless the creditworthiness of the borrower has changed significantly since the loan origination.

The fair value of fixed-rate loans is calculated by discounting the total amount of principal and interest at the interest rates considered to be applicable to similar loans by categories according to the types, internal ratings, and terms of the loans.

As for loans in legal bankruptcy, virtual bankruptcy and possible bankruptcy, credit loss is estimated based on factors such as the present value of expected future cash flows or the expected amount to be collected from collateral and guarantees. Since the fair value of these items approximates the carrying amount, net of the currently expected credit loss amount, such carrying amount is presented as the fair value.

For those without a fixed maturity due to loan characteristics such as limiting loans to within the value of collateral, the carrying amount is deemed to be the fair value since the fair value is expected to approximate the carrying amount based on the estimated loan periods, interest rates, and other conditions.

Liabilities

Deposits and negotiable certificates of deposit

Fair value of deposits on demand is deemed as payment amount if demanded on the consolidated balance sheet date (i.e., carrying amount).

Time deposits are grouped by certain maturity lengths. The fair value of such deposits is the present value of expected future cash flows discounted. The discount rate used is the interest rate that would be applied to newly accepted deposits.

Payables under securities lending transactions

The terms of all liabilities are short (within one year) and their fair values approximate their carrying values. The fair values are therefore deemed equal to the carrying values.

Borrowed money

Floating rate-borrowed money reflect market interest rates in short periods, and the credit standing of the Bank and its consolidated subsidiaries has not significantly changed from when the money was borrowed. The fair value of floating rate borrowed money is, therefore consolidated to approximate the carrying value and is deemed equal to the carrying value. The present value of fixed-rate borrowed money which is classified in accordance with its period, is estimated by discounting future cash flows, using rates that would be offered to similar borrowed money whose term is short(within one year) approximates the carrying value and is therefore deemed equal to the carrying value.

Derivatives

Fair value information for derivatives is included in Note 26.

(b) Carrying amount of financial instruments whose fair value cannot be reliably determined

The following instruments were not included in "Securities: Available-for-sales securities" in the above table showing the fair value of financial instruments.

	Carrying amount		
	Millions of yen		Thousands of U.S. dollars
	2018	2017	**2018**
Non-listed stocks (*1) (*2)	**¥3,257**	¥3,395	**$30,665**
Investments in venture funds (*3)	**2,993**	2,026	**28,176**
Total	**¥6,251**	¥5,421	**$58,842**

(*1) Non-listed stocks do not have a quoted market price in an active market and their fair values cannot be reliably determined, so they are not subject to fair value disclosure.
(*2) With respect to non-listed stocks, losses on devaluation of ¥0 million were recorded for the year ended March 31, 2017. No devaluation occurred for the year ended March 31, 2018.
(*3) The fair values of investments in venture funds cannot be reliably determined, so they are not subject to fair value disclosure.

(c) Maturity analysis for financial assets and securities with contractual maturities

	Millions of yen					
March 31, 2018	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
Due from banks	**¥ 776,856**					
Securities:

Total	**¥2,033,091**	**¥1,532,883**	**¥1,131,369**	**¥669,686**	**¥1,218,845**	**¥1,315,649**

	Millions of yen					
March 31, 2017	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
Due from banks	¥ 746,534					
Securities:						
Held-to-maturity bonds						
Available-for-sale	290,867	¥ 589,095	¥ 510,663	¥201,094	¥ 372,402	¥ 82,353
Loans and bills discounted (*)	1,053,512	830,221	783,865	469,504	711,054	1,039,122
Total	¥2,090,914	¥1,419,316	¥1,294,528	¥670,599	¥1,083,457	¥1,121,476

March 31, 2018	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
	Thousands of U.S. dollars					
Due from banks	$ 7,312,280					
Securities:						
Held-to-maturity bonds		$ 4,706	$ 18,825	$ 4,706	$ 14,118	
Available-for-sale	1,822,021	5,653,908	3,639,371	1,440,225	4,223,574	$ 1,470,138
Loans and bills discounted (*)	10,002,479	8,769,879	6,990,988	4,858,593	7,234,874	10,913,612
Total	$19,136,781	$14,428,494	$10,649,185	$6,303,525	$11,472,568	$12,383,751

(*) At March 31, 2018 and 2017, loans and bills discounted of ¥69,756 million ($656,593 thousand) and ¥75,747 million, respectively, whose collection amount is not determinable, such as loans in legal bankruptcy, loans in virtual bankruptcy and loans in possible bankruptcy, were not included in the table. At March 31, 2018 and 2017, loans and bills discounted of ¥15,155 million ($142,656 thousand) and ¥15,716 million, respectively, that did not have fixed maturities were not included as well.

(d) Maturity analysis for interest bearing liabilities

March 31, 2018	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
	Millions of yen					
Deposits (other than negotiable certificates of deposit)	¥6,461,990	¥392,491	¥24,494			
Negotiable certificates of deposit	920,153					
Payables under securities lending transactions	303,360					
Borrowed money	94,016	59	66	¥16,000		
Total	¥7,779,520	¥392,550	¥24,560	¥16,000		

March 31, 2017	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
	Millions of yen					
Deposits (other than negotiable certificates of deposit)	¥6,245,013	¥366,995	¥30,273			
Negotiable certificates of deposit	922,686	2,419				
Payables under securities lending transactions	163,682					
Borrowed money	92,319	181	99	¥29,000		
Total	¥7,423,703	¥369,597	¥30,373	¥29,000		

March 31, 2018	1 year or less	1 to 3 years	3 to 5 years	5 to 7 years	7 to 10 years	Over 10 years
	Thousands of U.S. dollars					
Deposits (other than negotiable certificates of deposit)	$60,824,459	$3,694,381	$230,556			
Negotiable certificates of deposit	8,661,081					
Payables under securities lending transactions	2,855,426					
Borrowed money	884,942	557	625	$150,602		
Total	$73,225,909	$3,694,938	$231,181	$150,602		

Deposits on demand (current deposits, ordinary deposits, and deposits at notice) are included in "1 year or less."

26. Derivatives

The contractual value of swap agreements and the contract amounts of forward exchange contracts, option agreements, and other derivatives do not necessarily measure the Bank's exposure to credit or market risk.

Derivative transactions to which hedge accounting is not applied

(1) Interest-rate-related Transactions

	Millions of yen			
	2018			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Interest rate swaps:				
Receive fixed and pay floating	¥52,883	¥44,846	¥ 967	¥ 967
Receive floating and pay fixed	52,883	44,846	(482)	(482)
Other:				
Sold	¥ 17			¥ 11
Bought	17			(7)
Total			¥ 484	¥ 488

	Millions of yen			
	2017			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Interest rate swaps:				
Receive fixed and pay floating	¥72,013	¥64,962	¥1,374	¥1,374
Receive floating and pay fixed	72,013	64,962	(661)	(661)
Other:				
Sold	¥ 35	¥ 35		¥ 11
Bought	35	35		(7)
Total			¥ 712	¥ 716

	Thousands of U.S. dollars			
	2018			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Interest rate swaps:				
Receive fixed and pay floating	$497,777	$422,124	$ 9,104	$ 9,104
Receive floating and pay fixed	497,777	422,124	(4,544)	(4,544)
Other:				
Sold	$ 165			$ 112
Bought	165			(71)
Total			$ 4,560	$ 4,601

Notes: 1. The above transactions were measured at fair value at the end of the fiscal year and the related gains or losses were recognized in the accompanying consolidated statement of income.
2. The fair values of the above derivatives were principally based on discounted values of future cash flows or option-pricing models.

(2) Currency-related Transactions

	Millions of yen			
	2018			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Forward exchange contracts:				
Sold	¥89,526	¥ 1,451	¥1,141	¥1,141
Bought	61,051	1,323	5	5
Currency options:				
Sold	¥30,330	¥14,396	¥ (896)	¥ 76
Bought	30,330	14,396	896	241
Total			¥1,147	¥1,465

	Millions of yen			
	2017			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Forward exchange contracts:				
Sold	¥87,685	¥2,322	¥(2,052)	¥(2,052)
Bought	59,665	2,186	570	570
Currency options:				
Sold	¥12,757	¥5,427	¥ (356)	¥ 83
Bought	12,757	5,427	356	23
Total			¥(1,481)	¥(1,375)

	Thousands of U.S. dollars			
	2018			
	Contractual value	Contractual value due after one year	Fair value	Unrealized gains (losses)
Forward exchange contracts:				
Sold	$842,678	$ 13,662	$10,747	$10,747
Bought	574,654	12,459	51	51
Currency options:				
Sold	$285,487	$135,507	$ (8,434)	$ 717
Bought	285,487	135,507	8,434	2,273
Total			$10,798	$13,790

Notes: 1. The above transactions were measured at the fair value at the end of the fiscal years and the related gains or losses were recognized in the accompanying consolidated statement of income.
2. The fair values of the above derivatives were principally based on discounted values of future cash flows.

Derivative transactions to which hedge accounting is applied

(1) Interest-rate-related Transactions

	Millions of yen		
	2018		
	Contractual amount	Contractual value due after one year	Fair value
Interest rate swaps:			
Receive floating and pay fixed	¥73,464	¥73,057	¥(1,916)

	Millions of yen		
	2017		
	Contractual amount	Contractual value due after one year	Fair value
Interest rate swaps:			
Receive floating and pay fixed	¥85,585	¥65,463	¥(2,487)

	Thousands of U.S. dollars		
	2018		
	Contractual amount	Contractual value due after one year	Fair value
Interest rate swaps:			
Receive floating and pay fixed	$691,500	$687,663	$(18,041)

Notes: 1. The Bank applies hedge accounting by matching specific items to be hedged with specific hedging instruments or applying deferral hedge accounting (or cash flow hedge) based on the rules of the JICPA Industry Audit Committee Report No. 24.
2. The fair values of the above derivatives were principally based on quoted market prices, such as those from Tokyo Financial Exchange Inc., or discounted values of future cash flows.
3. The hedged items for interest rate swaps were fixed-rate loans and time deposits.

(2) Currency-related Transactions

	Millions of yen		
	2018		
	Contractual amount	Contractual value due after one year	Fair value
Currency swaps	¥14,011	¥2,082	¥381

	Millions of yen		
	2017		
	Contractual amount	Contractual value due after one year	Fair value
Currency swaps	¥23,635		¥(1,454)

	Thousands of U.S. dollars		
	2018		
	Contractual amount	Contractual value due after one year	Fair value
Currency swaps	$131,883	$19,597	$3,595

Notes: 1. The Bank applies deferral hedge accounting principally based on the rules of the JICPA Industry Audit Committee Report No. 25.
2. The fair values of the above derivatives were principally based on discounted values of future cash flows.
3. The hedged items for currency swaps were currency-denominated available-for-sale securities.

27. Other Comprehensive Income

The components of other comprehensive income for the years ended March 31, 2018 and 2017, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2017	2018
Unrealized gains on available-for-sale securities:			
Gains arising during the year	¥221,625	¥148,800	$2,086,086
Reclassification adjustments to profit or loss	(1,447)	(9,678)	(13,623)
Amount before income tax effect	220,178	139,122	2,072,463
Income tax effect	67,477	42,472	635,143
Total	152,700	96,650	1,437,320
Deferred gains or losses on derivatives under hedge accounting:			
(Losses) gains arising during the year	(589)	56	(5,544)
Reclassification adjustments to profit or loss	1,151	1,257	10,835
Amount before income tax effect	562	1,314	5,291
Income tax effect	172	402	1,620

28. Business Combination

Year Ended March 31, 2018

1. Acquisition of additional shares in consolidated subsidiaries

(1) Outline of the business combination

① Name and business description of acquired companies

Name of the acquired companies	Business description
Kyoto Credit Service Co., Ltd.	Credit card services
Kyoto Card Service Co., Ltd.	Credit card services
Kyoto Research Institute, Inc.	Research and business consulting services

② Date of the business combination
October 2, 2017 and November 21, 2017

③ Legal form of the business combination
Acquisition of shares by cash

④ Name of the companies subsequent to the business combination
No change to the names of the companies

⑤ Other matters concerning the outline of transactions
Under circumstances where customers need diversification, we believe it was necessary to provide comprehensive financial services as a whole group to exercise our consulting function, and we reconsidered the capital structure of subsidiaries.

Through these transactions, we can strengthen our group management and strive to improve our corporate value.

(2) Overview of accounting treatments performed
The Bank accounted for the transactions with noncontrolling stockholders (a transaction under common control and other) in accordance with ASBJ Statement No. 21, "Accounting Standard for Business Combinations" (issued on September 13, 2013) and ASBJ Guidance No. 10, "Revised Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (issued on September 13, 2013).

(3) Matters to be noted concerning acquisition of additional shares in subsidiaries
Acquisition cost and details by type of consideration

	Billions of yen	Millions of U.S. dollars
	2018	2018
Acquisition cost	¥549	$5,170
Consideration for acquisition — Cash and due from banks	¥549	$5,170

(4) Matters concerning changes in the Bank's ownership interests in relation to transactions with noncontrolling interests

① Main reasons for the change in capital surplus
Additional acquisition and partial sale of shares in subsidiaries

② Amount of capital surplus increased due to the transactions with noncontrolling stockholders
¥622 million ($5,861 thousand)

③ Amount of capital surplus decreased due to the transactions with noncontrolling interests
¥154 million ($1,451 thousand)

2. Making a subsidiary the Bank's wholly owned subsidiary by a share exchange

(1) Overview of the transaction

① Name and business description of the combined company

Name of the combined company	Business description
Kyoto Guaranty Service Co., Ltd.	Credit guarantee services

② Date of the business combination

December 25, 2017

③ Legal form of the business combination

Share exchange whereby Kyoto Guaranty Service Co., Ltd becomes a wholly owned subsidiary by the Bank

④ Name of the company subsequent to the business combination

No change to the name of the company

⑤ Other matters concerning the outline of the transaction

Under circumstances where customers need diversification, we believe it was necessary to provide comprehensive financial services as a whole group to exercise our consulting function, and we reconsidered the capital structure of subsidiaries.

Through this transaction, we can strengthen our group management and strive to improve corporate value.

(2) Overview of accounting treatments performed

The Bank accounted for the transaction as a transaction with noncontrolling stockholders (a transaction under common control and other) in accordance with ASBJ Statement No. 21, "Accounting Standard for Business Combinations" (issued on September 13, 2013) and ASBJ Guidance No. 10, "Revised Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (issued on September 13, 2013).

(3) Matters to be noted concerning acquisition of additional shares in subsidiaries

① Acquisition cost and details by type of consideration

	Billions of yen	Millions of U.S. dollars
	2018	2018
Acquisition cost	¥3,926	$36,955
Consideration for acquisition — Treasury stocks	¥3,926	$36,955

② Share exchange ratio by type of stock, its calculation method and number of shares to be issued

a. Share exchange ratio by type of stock

The Bank allotted 216 shares of its common stock for 1 share of common stock of Kyoto Guaranty Service Co., Ltd.

b. Calculation method of share exchange ratio

The Bank appointed the Rutland Audit Firm as an independent advisor concerning the calculation of the share exchange ratio and requested the calculation in order to secure the fairness and reasonableness in deciding on the share exchange ratio. After the Bank and Kyoto Guaranty Service Co., Ltd. negotiated and discussed the share exchange ratio with reference to the outcome of the independent calculation, the Bank judged the above noted share exchange ratio was reasonable and both parties agreed and finalized the transaction.

c. Number of shares to be issued

660 thousand shares

(4) Matters concerning changes in the Bank's ownership interests in relation to the transaction with noncontrolling interests

① Main reasons for the change in capital surplus

Additional acquisition of shares in the subsidiary

② Amount of capital surplus increased due to the transaction with noncontrolling interests

¥3,562 million ($33,530 thousand)

29. Segment Information

Under ASBJ Statement No. 17, "Accounting Standard for Segment Information Disclosures," and ASBJ Guidance No. 20, "Guidance on Accounting Standard for Segment Information Disclosures," an entity is required to report financial and descriptive information about its reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available and such information is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

1. Description of reportable segments

The Group's reportable segments are those for which separately financial information is available and regular evaluation by the Bank's management is being performed in order to decide how resources are allocated among the Group.

The Group provides financial services, but engages mainly in the banking business. Since the business other than the banking business which the Group engages in is immaterial, banking is the only reportable segment of the Group.

The banking business consists of deposit-taking and lending services, trading of securities, securities investment, domestic exchange services, foreign exchange services, etc.

2. Methods of Measurement of Operating Income, Profit (Loss), Assets, Liabilities, and Other Items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Summary of Significant Accounting Policies."

The profit of the reportable segment is based on "net operating income." "Net operating income" does not include certain other income and expenses, income taxes, and noncontrolling interests.

3. Information about Operating Income, Profit (Loss), Assets, Liabilities, and Other Items was as follows.

	Millions of yen				
	2018

Equity in losses of an affiliated company		139	139		139
Investments in affiliated company accounted by equity method		714	714		714
Increase in tangible and intangible fixed assets	30,340	1,812	32,152		32,152

Notes: 1. "Operating income" was presented as a substitute for sales in industries. "Operating income" did not include certain other income. A downward reconciliation in ordinary income from external customers was made to adjust the gain on reversal of reserve for possible loan losses.
2. "Other" included business segments excluded from reportable segments including the credit guarantee business, leasing business, credit card business, security business, and several other businesses.
3. "Reconciliations" were eliminations of intersegment transactions.
4. "Reconciliations" were eliminations of intersegment assets.
5. "Reconciliations" were eliminations of intersegment liabilities (decrease by ¥35,169 million ($331,037 thousand)), and adjustments of liabilities for retirement benefits (increase by ¥3,318 million ($31,239 thousand)).

1. Information about services

	Millions of yen			
	2018			
	Lending services	Securities investment	Other	Total
Operating income from outside customers	¥46,057	¥35,333	¥28,841	¥110,232

	Millions of yen			
	2017			
	Lending services	Securities investment	Other	Total
Operating income from outside customers	¥46,756	¥36,916	¥26,733	¥110,406

	Thousands of U.S. dollars			
	2018			
	Lending services	Securities investment	Other	Total
Operating income from outside customers	$433,520	$332,581	$271,475	$1,037,578

2. Information about geographical areas

(1) Operating income

Operating income from domestic customers exceeded 90% of total operating income on the consolidated statement of income for the fiscal years ended March 31, 2018 and 2017; therefore, geographical operating income information was not presented.

(2) Tangible fixed assets

The balance of domestic tangible fixed assets exceeded 90% of total balance of tangible fixed assets on the consolidated balance sheet as of March 31, 2018 and 2017; therefore, geographical tangible fixed assets information was not presented.

3. Information about major customers

Operating income from transactions with specific customers did not reach 10% of total operating income on the consolidated statement of income for the fiscal years ended March 31, 2018 and 2017; therefore, major customer information was not presented.

30. Net Income per Share

Reconciliation of the differences between basic and diluted net income per share ("EPS") for the years ended March 31, 2018 and 2017, was as follows:

	Millions of yen	Thousands of shares	Yen	U.S. dollars
	Net income	Weighted-average shares	EPS	EPS
For the year ended March 31, 2018				
Basic EPS — Net income available to common shareholders	¥19,323	75,511	¥255.89	$2.40
Effect of dilutive securities — Convertible bonds and stock acquisition rights		126		
Diluted EPS — Net income for computation	¥19,323	75,638	¥255.46	$2.40
For the year ended March 31, 2017				
Basic EPS — Net income available to common shareholders	¥18,601	75,607	¥246.02	
Effect of dilutive securities — Convertible bonds and stock acquisition rights		145		
Diluted EPS — Net income for computation	¥18,601	75,752	¥245.55	

Share and per share figures have been restated, as appropriate, to reflect a one-for-five reverse stock split implemented on October 1, 2017.

The Company applied the revised accounting standard and guidance for (a) presentation of the consolidated balance sheet and (b) presentation of the consolidated statement of income, effective April 1, 2016.

The impact of the change on basic and diluted EPS for the year ended March 31, 2018 was insignificant.

31. Subsequent Events

Appropriations of Retained Earnings

The following appropriation of retained earnings at March 31, 2018, was approved at the Bank's general meeting of shareholders held on June 28, 2018:

	Millions of yen	Thousands of U.S. dollars
Year-end cash dividends, ¥30.00 ($0.28) per share	¥2,265	$21,322
